The Nebraska Department of Revenue Property Assessment Division has recently received the 2008 Certificates of Taxes Levied from assessors throughout the state. The data indicates that, statewide, all property taxes have increased 5.47% from 2007 to 2008.

Statewide, 2008 property taxes totaled \$2.722 billion, compared to \$2.581 billion in 2007. This is an increase of \$141 million. Of the increase in taxes, approximately \$19 million (14%) is attributable to voter-approved bonds, \$47 million (33%) is attributable to newly constructed real property, and \$75 million (53%) is absorbed by existing property.

The impact on individual taxpayers will vary greatly, depending on the budget needs of their local governmental subdivisions and voter-approved bonds. For instance, Boyd County had the least amount of change in taxes levied of -3.02%, while Valley County taxes increased 17.56%. The attached chart shows the tax change in each county.

Property taxes are payable to the county treasurer and go to support local schools, counties, cities, community colleges, natural resource districts, fire districts, and other local governmental subdivisions. The State of Nebraska does not receive any property tax revenue.

As a reminder, in Douglas, Lancaster, and Sarpy counties, the first half of the 2008 tax becomes delinquent on April 1, 2009 and the second half becomes delinquent on August 1, 2009. In all other counties, the first half of the 2008 tax becomes delinquent on May 1, 2009 and the second half becomes delinquent on September 1, 2009.
