

Nebraska Tax Incentives

**2011 Annual Report
to the Nebraska Legislature**

Issued July 13, 2012

Letter from the Tax Commissioner

Nebraska Advantage Act

Nebraska Advantage Rural Development Act

Nebraska Advantage Microenterprise Tax Credit Act

Nebraska Advantage Research and Development Act

Employment and Investment Growth Act (LB 775)

Employment Expansion and Investment Incentive Act (LB 1124, as amended by LB 270)

Invest Nebraska Act (LB 620)

Quality Jobs Act (LB 829)

Dave Heineman
Governor

STATE OF NEBRASKA
DEPARTMENT OF REVENUE
Douglas A. Ewald, Tax Commissioner
P.O. Box 94818 • Lincoln, Nebraska 68509-4818
Phone: (402) 471-5729 • www.revenue.ne.gov

July 13, 2012

Senator Mike Flood
Speaker of the Legislature
2103 State Capitol
Lincoln, NE 68509

Dear Speaker Flood:

The Nebraska Department of Revenue (Department) is electronically submitting the 2011 Annual Report on the following programs:

- Nebraska Advantage Act;
- Nebraska Advantage Rural Development Act;
- Nebraska Advantage Microenterprise Tax Credit Act;
- Nebraska Advantage Research and Development Act;
- Employment and Investment Growth Act;
- Employment Expansion and Investment Incentive Act;
- Invest Nebraska Act; and
- Quality Jobs Act.

The 2011 Annual Report and annual reports issued since 1997 can be found on the Department's website at www.revenue.ne.gov. An email has also been sent to all members of the Unicameral with a link to the 2011 Annual Report. Archived copies of years older than 1997 may be requested from the Department.

If you have any questions, please contact Mary Hugo at 402-471-5790.

Sincerely,

Douglas A. Ewald
Tax Commissioner

Reporting Requirements, Neb. Rev. Stat. § 77-5731

Description of Benefits

Comparison of Nebraska Tax Incentive Programs to those Available in Other States

Application Activity

Agreements Signed in 2011 and Cumulatively

Principal Business Activity Codes and Application Tier of Projects with Active Signed Agreements

Summary of Benefits Approved

Benefits Used through 2011

Benefits Approved, by Industry, in 2011 and Cumulatively

Personal Property Value Exempted, by Type, by County

Project-specific Benefits Summary

Projected Revenue Gains and (Losses) for Tax Years 2010-2022, by Fiscal Year

Nebraska Advantage Act Reporting Requirements

[Neb Rev. Stat. § 77-5731](#) provides:

- (1) The Tax Commissioner shall submit an annual report to the Legislature no later than July 15 of each year.
- (2) The report shall list
 - (a) [the agreements which have been signed during the previous calendar year](#),
 - (b) [the agreements which are still in effect](#),
 - (c) [the identity of each taxpayer who is party to an agreement](#), and
 - (d) [the location of each project](#).
- (3) The report shall also state, for taxpayers who are parties to agreements, by industry group
 - (a) [the specific incentive options applied for under the Nebraska Advantage Act](#),
 - (b) [the refunds allowed on the investment](#),
 - (c) [the credits earned](#),
 - (d) [the credits used to reduce the corporate income tax and the credits used to reduce the individual income tax](#),
 - (e) [the credits used to obtain sales and use tax refunds](#),
 - (f) [the credits used against withholding liability](#),
 - (g) [the number of jobs created under the act](#),
 - (h) [the total number of employees employed in the state on the last day of the calendar quarter prior to the application date and the total number of employees employed in the state on subsequent reporting dates](#),
 - (i) [the expansion of capital investment](#),
 - (j) [the estimated wage levels of jobs created under the act subsequent to the application date](#),
 - (k) [the total number of qualified applicants](#),
 - (l) [the projected future state revenue gains and losses](#),
 - (m) [the sales tax refunds owed](#),
 - (n) [the credits outstanding under the act](#),
 - (o) [the value of personal property exempted by class in each county under the act](#),
 - (p) [the value of property for which payments equal to property taxes paid were allowed in each county](#), and
 - (q) [the total amount of the payments](#).
- (4) In estimating the [projected future state revenue gains and losses](#), the report shall detail the methodology utilized, state the economic multipliers and industry multipliers used to determine the amount of economic growth and positive tax revenue, describe the analysis used to determine the percentage of new jobs attributable to the Nebraska Advantage Act assumption, and identify limitations that are inherent in the analysis method.

(5) The report shall provide an explanation of the audit and review processes of the Department of Revenue in approving and rejecting applications or the grant of incentives and in enforcing incentive recapture. The report shall also specify the median period of time between the date of application and the date the agreement is executed for all agreements executed by December 31 of the prior year.

(6) The report shall provide information on project-specific total incentives used every two years for each approved project. The report shall disclose

(a) the identity of the taxpayer,

(b) the location of the project, and

(c) the total credits used and refunds approved during the immediately preceding two years expressed as a single, aggregated total.

The incentive information required to be reported under this subsection shall not be reported for the first year the taxpayer attains the required employment and investment thresholds. The information on first-year incentives used shall be combined with and reported as part of the second year. Thereafter, the information on incentives used for succeeding years shall be reported for each project every two years containing information on two years of credits used and refunds approved. The incentives used shall include incentives which have been approved by the department, but not necessarily received, during the previous two calendar years.

(7) The report shall include an executive summary which shows aggregate information for all projects for which the information on incentives used in subsection (6) of this section is reported as follows:

(a) The total incentives used by all taxpayers for projects detailed in subsection (6) of this section during the previous two years;

(b) the number of projects;

(c) the total number of employees of these taxpayers employed in the state on the last day of the calendar quarter prior to the application date, the new jobs at the project for which credits have been granted, and the total number of employees employed in the state by these taxpayers on subsequent reporting dates;

(d) the average compensation paid employees in the state in the year of application and for the new jobs at the project; and

(e) the total investment for which incentives were granted.

The executive summary shall summarize the number of states which grant investment tax credits, job tax credits, sales and use tax refunds for qualified investment, and personal property tax exemptions and the investment and employment requirements under which they may be granted.

(8) No information shall be provided in the report that is protected by state or federal confidentiality laws.

Nebraska Advantage Act - Description of Benefits

General Information:

The Nebraska Advantage Act allows a taxpayer involved in a qualified business to earn and use benefits for investment and employment growth. For a list of qualified business activities, click [here](#). There are six Tiers that have varying requirements and benefits for investment and employment.

Application Information:

An application must be filed for each project. The application date for the project will impact the investment, employment, and the associated benefits allowed for the project. A complete application must be filed to establish an application date. For applications filed on or after October 1, 2009, taxpayers must utilize E-verify to verify that all new employees are legally able to work in the United States, as required by Neb. Rev. Stat. § 77-5722.01 For more information on filing an application under the Nebraska Advantage Act, see the Application Guide and the Nebraska Advantage Application.

Requirements by Application Level:

Each of the tiers requires a stated increase in the investment and employment levels by the end of the attainment period. Refer to the table below for the minimum required levels for each tier.

The increase in investment is equal to the value of qualified property placed in service at the project after the date of application. Qualified property means any tangible property of a type subject to depreciation, amortization, or other recovery under the Internal Revenue Code of 1986, or the components of such property, that will be located and used at the project or at the residence of a teleworker working in Nebraska. Qualified property does not include aircraft, barges, motor vehicles, railroad rolling stock, watercraft, or property rented to another person.

The increase in employment is equal to the number of new full-time equivalent (FTE) employees at the project. The number of new employees is calculated using the number of hours paid in the year. One FTE employee is equal to 40 hours per week for the entire year.

Year	Required Wage Level		Required Investment and Employment Threshold					
	Tiers 1-4	Tier 6*	Tier 1 10 FTE	Tier 2 30 FTE	Tier 4 100 FTE	Tier 5 n/a	Tier 6	
							75 FTE	50 FTE
2011	\$21,986	\$54,966	\$1M	\$3M	\$11M	\$33M	\$10M	\$100M
2010	\$21,742	\$54,354	\$1M	\$3M	\$10M	\$32M	\$10M	\$100M
2009	\$21,136	\$52,841	\$1M	\$3M	\$11M	\$34M	\$10M	\$102M
2008	\$20,281	\$50,702	\$1M	\$3M	\$10M	\$31M	\$10M	\$100M
2007	\$19,452	N/A	\$1M	\$3M	\$10M	\$30M	N/A	N/A
2006	\$18,905	N/A	\$1M	\$3M	\$10M	\$30M	N/A	N/A

*The wage level varies by county. It is equal to the greater of 200% of the county average or 150% of the state average. The wage level listed in the table is 150% of the state average. Click [here](#) for [Required Annual Wages by County](#) for Tier 6.

Tier 3 has no minimum investment requirement. Tier 5 does not require employment growth, but the average employment at the project for the entitlement period must be at least equal to the base year employment.

Description of Time Periods:

Year

Year means the federal taxable year of the taxpayer.

Base Year

The base year is the year immediately preceding the year during which the application was filed.

Attainment Period

The attainment period is the number of years, including the year of application, within which the taxpayer must meet the minimum levels of investment and employment required for benefits.

- **Tiers 1, 3, and 6.** The taxpayer must attain the minimum required levels within five years.
- **Tiers 2, 4, and 5.** The taxpayer must attain the minimum required levels within seven years.

Entitlement Period

The entitlement period is the number of years during which the project may both earn and use credits. No credits are earned in a year in which the project does not maintain the minimum required levels of investment or employment. The entitlement period begins the year the required investment and employment increases are met.

- **Tiers 1 and 3.** The entitlement period continues until the end of the ninth year following the year of application, or the sixth year after the year the required increases of investment and employment were met, whichever is earlier.
- **Tiers 2, 4, and 5.** The entitlement period continues until the end of the sixth year after the year the required increases of investment and employment were met.
- **Tier 6.** The entitlement period continues until the end of the ninth year after the year the required increases of investment and employment were met.

The entitlement period for property tax benefits may be different from the entitlement period for other benefits for Tier 4. A taxpayer applying under Tier 4 has a two-part agreement. When the project attains the minimum required levels for a Tier 2 project, the project is eligible for all benefits of a Tier 2 project. When the project attains the minimum required levels for Tier 4, the project is eligible for certain property tax exemptions.

- **Tier 6.** The entitlement period includes the year the taxpayer meets the minimum required levels of investment and employment, and the next nine years.

Carryover Period

The carryover period starts after the end of the entitlement period. No additional credits are earned during the carryover period.

- **Tiers 1 and 3.** Credits may not be carried over more than nine years after the year of application.
- **Tiers 2 and 4.** Credits may not be carried over more than 14 years after the year of application.
- **Tier 6.** Credits may not be carried over more than one year past the end of the entitlement period.

Time Periods Per Tier:

Time Period	Tier 1	Tier 2	Tier 3	Tier 4	Tier 5	Tier 6
Attainment	5	7	5	7	7	5
Entitlement	6 or 7*	7	6 or 7*	7	7	10
Carryover	0 to 3*	2 to 8*	0 to 3*	2 to 8*	N/A	1
Maximum Life	10	15	10	15	13	15

**Time periods are limited by the maximum life of the project.*

Description of Available Benefits:

Direct Refund

A direct refund is a refund to the applicant of Nebraska and local sales and use taxes paid on the purchase or lease of qualified property for use at the project, or on the purchase or lease of an aircraft for use in connection with the project, which is placed in service during the attainment or entitlement period. For Tier 1 projects, only 50% of the sales and use taxes paid are eligible for refund.

Qualified property is any tangible property of a type subject to depreciation, amortization, or other recovery under the Internal Revenue Code of 1986, or the components of this property, that will be located and used at the project or at the residence of a teleworker working in Nebraska. Qualified property does not include aircraft, barges, motor vehicles, railroad rolling stock, watercraft, or property that is rented to another person.

Investment Credit

The investment credit is a credit equal to three percent (Tier 1), ten percent (Tiers 2 and 4), or 15 percent (Tier 6) of the investment made in qualified property at the project during the attainment or entitlement periods. The credit on qualified property placed in service, from date of application through the end of the tax year in which the minimum required levels are met, is earned in the qualification year. Credits are also earned on qualified property placed in service in other years during the entitlement period.

Investment credits may be used for a sales and use tax refund, income tax refund, or for Tier 6, a real property tax credit reimbursement.

Compensation Credit

- **Tiers 1, 2, 3, and 4.** In each year of the entitlement period, the compensation credit is computed as follows:

$$(\text{number of new FTEs}) \times (\text{average annual wage of new employees}) \times (\text{credit percentage})$$

The number of new equivalent employees at the project is the lesser of: (1) the equivalent employees at the project during a year in excess of the number of equivalent base year employees; or (2) the number of equivalent new employees.

A new employee is an employee hired after the base year or transferred into Nebraska after the base year who earns the required wage.

The number of equivalent employees is calculated using the number of hours paid in the year. One FTE employee is equal to 40 hours per week for the entire year.

Average annual wage means the taxable wages paid to new employees at the project divided by the number of equivalent employees that make up these wages. For projects with an application date of July 15, 2010 or later, the average annual wage means the wages subject to Medicare tax paid to new employees at the project divided by the number of equivalent employees that make up these wages.

The credit percentage ranges from three percent to six percent depending on the average annual wage paid to new employees.

- **Tier 6.** In each year of the entitlement period, the compensation credit is equal to ten percent times the taxable compensation of all non-base year employees.

The compensation credit may be used for a sales and use tax refund, an income tax refund, a withholding tax credit refund, or for Tier 6, a real property tax credit reimbursement.

Personal Property Tax Exemption

- **Tier 4.** A taxpayer may claim a personal property tax exemption on four types of property acquired after the date of application:
 1. Turbine powered aircraft;
 2. Computer systems and specific peripherals that require environmental controls;
 3. Business equipment involved directly in the processing of agricultural products; and
 4. Distribution facility equipment used to store and move product.

Turbine powered aircraft may be exempted from the first January 1 following the date of acquisition of the property through the ninth calendar year after the project attains the minimum required investment level of \$10 million in new investment and 100 new, FTE employees. The aircraft may not be used to transport an elected official, or for fundraising for an elected official.

The computer systems and specific peripherals, agricultural processing equipment, and distribution facility equipment may be exempted from the first January 1 following the end of the year during which the required levels were exceeded and the next nine calendar years.

- **Tiers 2 and 5.** The property tax exemption on computer systems and specific peripherals is only available to a taxpayer who has a project for an Internet web portal or a data center.

Computer systems and specific peripherals that require environmental controls of temperature and power may be exempted from the first January 1 following the end of the year during which the required levels were exceeded and the next nine calendar years.

- **Tier 6.** A taxpayer may claim a personal property tax exemption on any personal property at the project and on turbine powered aircraft acquired after the date of application.

Turbine powered aircraft, acquired after the date of application, may be exempted from the first January 1 following the date of acquisition of the property through the ninth year after the project attains the minimum required investment and new FTE employee levels. The aircraft may not be used to transport an elected official, or for fundraising.

All personal property at the project may be exempted from the first January 1 following the end of the year during which the required levels were exceeded and the next nine calendar years.

Sales and Use Tax Refund

This is a refund of Nebraska and local sales and use taxes paid on otherwise non-refundable purchases. For Tiers 1, 2, 3, and 4, the purchases must be used at the project. For Tier 6, the purchases may be used anywhere in Nebraska. The credits used for a sales and use tax refund must be earned in a prior tax year.

If the local refund for a single locality is more than \$25,000, the locality will be notified in advance and the payment of the local tax will be delayed.

Income Tax Refund

Credits may be used to reduce the income tax liability of the taxpayer's entire unitary group. The credits used for an income tax refund may be earned in a prior year or the current year.

Credits earned by a partnership, S corporation, limited liability company, cooperative, limited cooperative association, or an estate or trust may be distributed in the same ratio as income. The recipient of the distributed credit may use the credit to reduce their income tax liability from the year of distribution through the end of the entitlement period or carryover period, whichever is later.

Payroll Withholding Offset

- **Tiers 1, 2, 3, and 4.** Compensation credits may be used to receive a refund of, or to reduce the taxpayer's payroll withholding liability, attributable to the number of new employees at the project, excluding compensation in excess of \$1 million paid to any one employee.
- **Tier 6.** Compensation credits may be used to receive a refund of, or to reduce the taxpayer's payroll withholding liability, attributable to all employees at the project other than base-year employees, excluding compensation in excess of \$1 million paid to any one employee.

The credits used to offset a payroll withholding liability must be earned in a prior tax year.

Real Property Tax Reimbursement

- **Tier 6.** The credits may be used for a reimbursement from the State equal to real property taxes due after the year the project met the minimum required levels of investment and employment through the end of the carryover period on investment made after the date of application.

The credits used for a real property tax reimbursement must be earned in a prior tax year.

Benefits by Application Level:

	Tier 1	Tier 2	Tier 3	Tier 4	Tier 5	Tier 6
Benefit						
Direct Refund	50%	100%		100%	100%	100%
Investment Credit	3%	10%		10%		15%
Compensation Credit	3%-6%	3%-6%	3%-6%	3%-6%		10%
Personal Property Tax Exemption		Computer Systems ¹		4 types	Computer Systems ¹	All TPP ²
Use of Credits						
Sales and Use Tax Refund	✓	✓	✓	✓		✓
Income Tax Refund	✓	✓	✓	✓		✓
Distribution of Credit	✓	✓	✓	✓		✓
Withholding Offset ³	✓	✓	✓	✓		✓
Real Property Tax Reimbursement						✓

¹The exemption is only available for an Internet web portal or a data center project.

²TPP = Tangible Personal Property

³The withholding refund is limited to prior year compensation credit.

Audit and Review Procedures:

Application

A taxpayer submits an application with supporting documents, including an application fee, to the Nebraska Department of Revenue (Department). Each application is reviewed to ensure that the applicant is an eligible taxpayer, and that the plan relates to a qualifying business activity at interdependent locations.

Audit

When the taxpayer notifies the Department that it has reached the qualification levels, an audit is conducted to confirm the attainment of the minimum required levels of investment and employment, verification of the credits earned in the attainment period, and the accuracy of the initial direct sales and use tax refund. The Department reviews annual filings for claimed tax benefits for reasonableness. The Department conducts periodic maintenance audits of selected taxpayers and projects to ensure that projects have continued to comply with the minimum levels of investment and employment necessary for the selected Tier, and to verify the propriety of the credits reported and benefits received. The confirmation of attainment of the minimum required levels of new investment and employment required for the property tax exemption may be done as part of the original qualification audit for Tier 4, or as part of a maintenance audit of a subsequent year.

Claims for Benefits

The taxpayer files claims for sales and use tax paid during the entitlement and carryover periods. All claims are reviewed to confirm the proper payment of tax on items eligible for benefits. The review of the claim may involve testing of certain transactions based on dollar scopes or issues.

The taxpayer must file a claim for the personal property tax exemption on or before May 1 with the Tax Commissioner, on a Form 5725X, with a copy of the form filed with the county assessor in which the property is located. The Department determines whether the taxpayer is eligible for the exemption based on whether or not the required levels of investment and employment have been met, and whether or not the property falls within the classes of exempt personal property. A Tier 6 taxpayer may elect to use credits for a reimbursement of property taxes paid on real property purchased or leased after the date of application and used at the project. Prior to approving the reimbursement, the Department will confirm the required payment was made to the county.

The taxpayer files Nebraska income tax and withholding returns claiming the use of credits as an offset of all, or a portion, of the taxes due. The Department will review and approve the credit usage. The Department also reviews or audits the information to ensure that credits were only used as an offset against the withholding attributable to the appropriate employees.

Comparison of Nebraska Tax Incentive Programs to those Available in Other States

[Reporting Neb. Rev. Stat. § 77-5731\(7\)](#)

States offer many types of tax incentives for businesses. This table summarizes tax incentives in states that somewhat follow the Nebraska model of granting tax incentives. For example, qualification for tax incentives is not dependent upon the location of a project in an enterprise zone or other limited geographic area. Thus, states that offer jobs or investment credits to businesses, but only to those who locate in a limited area, are not counted. States that offer tax incentives, but have different qualification levels depending upon geography, are counted provided that a project could qualify, at some level, in every part of the state.

States may also limit qualification for incentives to targeted industries. Nebraska does this, and the table counts those states where incentives are limited only to targeted activities. Finally, Nebraska refunds the sales and use tax on qualified investments, but some states refund only a portion of the tax. These states are counted as having a refund. Some states have broader sales and use tax exemptions than Nebraska, but do not provide a refund of any taxes paid. Tax exemptions are outside the scope of this report, and states are not counted if they do not provide at least a partial refund of sales and use taxes paid on qualified investment.

[Alabama](#)

Job credit: Yes

- 50 new employees at HQ or data processing
- 20 new employees at all projects except utility-owned, small business additions, and projects in favored geographic regions
- 15 new employees at small business addition projects
- 5 new employees at projects in favored geographic regions. (p. 7)
- Hires are subject to base wage requirements

Investment Credit: Yes

- \$100 million for utility-owned projects producing electricity from alternative energy resources
- \$5 million for utility-owned projects producing electricity from hydropower
- \$2 million for all projects except utility-owned small business additions and projects in favored geographic regions
- \$1 million for small business addition projects
- \$500,000 for projects in favored geographic regions (p. 7)

Sales/use tax refund on qualified investment: Yes

- There is no threshold or limiting investment for a new sales tax abatement project with the exception of projects owned by utilities producing electricity, which are subject to the following thresholds:
 - \$100 million in capital costs for facilities producing electricity from alternative energy sources
 - \$5 million in capital costs for facilities producing electricity from hydropower
- The additional capital investment by an industry that is expanding their current facilities in Alabama must equal the lesser of:
 - 30% of the original cost of the currently existing industrial property
 - \$2 million (p. 3)

Personal property tax abatement: Yes, subject to the same qualifications as the sales tax abatement program.(p. 5)

Alaska

Job credit: None.

Investment Credit: None.

Sales/use tax refund on qualified investment: None.

Personal property tax abatement: None.

Arizona

Job and investment credit: Quality Jobs Tax Credit Program

- In metro areas, at least 25 jobs must be created with a minimum capital investment of \$5 million.
- In rural areas, at least five jobs must be created with a minimum capital investment of \$1 million.
- Both programs require the jobs to pay 100% of the median county wage and 65% of health insurance costs for the employee.

Sales/use tax refund on qualified investment: None.

Personal property tax abatement: None.

Arkansas

Job credit: Credit on state income tax depends on region of state and payroll thresholds:

- Payroll threshold of \$125,000 in Tier 1
- Payroll threshold of \$100,000 in Tier 2
- Payroll threshold of \$75,000 in Tier 3
- Payroll threshold of \$50,000 in Tier 4
- Jobs must pay a wage equal or greater than Arkansas average wage
- Must be engaged in a specific industry as listed

Investment Credit: ArkPlus is available in “highly competitive situations” that credits 10% of total investment to state income tax liability by regional tier:

- Tier 1: Minimum investment of \$5 million and minimum payroll of \$2 million
- Tier 2: Minimum investment of \$3.75 million and minimum payroll of \$1.5 million
- Tier 3: Minimum investment of \$3 million and minimum payroll of \$1.2 million
- Tier 4: Minimum investment of \$2 million and minimum payroll of \$0.8 million

Sales/use tax refund on qualified investment:

- Investment of \$100,000 qualifies for sales and use tax for building materials and taxable machinery and equipment associated with approved project (TaxBack)
- Investment of \$5 million available to Arkansas businesses established for at least two years qualify for sales and use tax refund in plant or equipment for new construction, expansion, or modernization. (InvestArk)
- Must be in specified industry as listed

Personal property tax abatement: None.

California

Job credit: None.

Investment Credit: None.

Sales/use tax refund on qualified investment: No, only for equipment purchases within specific enterprise zones (p. 8).

Personal property tax abatement: None.

Colorado

Job credit: [Aviation manufacturers](#) may earn an income tax credit of \$1,200 per employee hired.

Investment Credit: None.

Sales/use tax refund on qualified investment: Refund of sales and use tax available for purchases of qualified biotechnology research and development equipment.

Personal property tax abatement: At the discretion of the city or county government.

Connecticut

Job credit:

- A corporate business tax credit for companies who hire at least 10 new employees for a minimum of a 12-month period

Investment Credit:

- 10% credit for increased investment in machinery and equipment for companies with 250 or fewer employees, 5% credit for companies with 251 to 800 employees in CT
- 5% credit for fixed capital investment in tangible personal property

Sales/use tax refund on qualified investment: None.

Personal property tax abatement: None.

- 100% for 5 years on newly acquired and installed machinery and equipment eligible for 5-7 year depreciation
- 100% for inventories
- 30-100% from the increase assessment for personal property for manufacturers and 20-50% for eligible real property improvements can be offered by towns for 2-7 years, depending on the investment amount
- 100% for unbundled software, machinery & equipment that will be exempt under 12-81 (72) once installed and used
- 100% for 5 years on new commercial motor vehicles weighing over 26,000 lbs. that are used to transport freight for hire and all new commercial vehicles weighing over 55,000 lbs.

Delaware

Job credit: None.

Investment Credit: None.

Sales/use tax refund on qualified investment: No sales tax.

Personal property tax abatement: None.

Florida

Job credit: Yes, see investment credit.

Investment Credit: Yes.

- The Capital Investment Tax Credit is available for specific industries that create at least 100 jobs and invest at least \$25 million in capital costs.
- The High Performance Incentive Tax Credit is targeted toward clean energy, corporate HQ, financial services, life sciences, semiconductor, and financial services sectors. Firms must create at least 50 new jobs and invest at least \$50 million in capital investment. R&D firms must create 25 new jobs and invest \$25 million.

Sales/use tax refund on qualified investment: Refund on sales tax paid on construction materials in an enterprise zone is available.

Personal property tax abatement: None.

Georgia

Job credit: Yes.

- Firms creating jobs in specific industries can earn the [Job Credit](#) based on the following criteria:
 - In tier 1, 5 jobs must be created, which can offset 100% of income tax liability
 - In tier 2, 10 jobs must be created, which can offset 100% of income tax liability
 - In tier 3, 15 jobs must be created, which can offset 50% of income tax liability
 - In tier 4, 20 jobs must be created, which can offset 50% of income tax liability
 - Each credit can be carried forward ten years
- A firm creating jobs that pay higher-than-average wages may qualify for a [Quality Jobs Tax Credit](#). The credit varies by the wage paid.

Investment Credit: Yes.

- Firms making qualified capital investments of at least \$50,000 may qualify for an [Investment Tax Credit](#). The size of credit depends on location by favored region and type of investment. Credits are applied to corporate income tax.
- The [Optional Investment Tax Credits](#) offer credits for firms in favored regions:
 - Tier 1: \$5 million investment, 10% credit
 - Tier 2: \$10 million investment, 8% credit
 - Tier 3 or 4: \$20 million investment, 6% credit

Georgia (continued)

- A [Mega Project Tax Credit](#) is available to firms with a minimum payroll of \$150 million or makes a minimum investment of \$450 million, and hires at least 1,800 new employees.

Sales/use tax refund on qualified investment: None.

Personal property tax abatement: None.

Hawaii

Job credit: None.

Investment Credit: A [High-Tech Tax Incentive](#) program is offered which appears to be determined by comfort ruling.

Sales/use tax refund on qualified investment: None.

Personal property tax abatement: Personal property not taxed.

Idaho

Job credit:

- [Threshold Requirement:](#) At least 10 jobs
- Jobs must average \$40,000 of pay annually plus benefits

Investment Credit: Yes.

- Threshold Requirement: \$500,000 investment in new facilities. (p. 2)

Sales/use tax refund on qualified investment: Yes.

- Up to a 25% rebate on sales taxes paid on construction materials for new facilities

Personal property tax abatement:

- In lieu of an investment tax credit, a two year exemption from property tax on qualified personal property is available only if a loss was incurred in the second preceding tax year in which the property was placed in service.
 - County commissioners may authorize a full or partial property tax exemption.
-

Illinois

Job credit: Yes.

- The [EDGE Program](#) allows tax credits to firms who agree to make an investment of at least \$5 million and create at least 25 jobs. For a company with 100 or fewer employees, the company must agree to make a capital investment of \$1 million or create at least 5 full-time jobs in Illinois.
- Qualification for a [High-Impact Business Tax Credit](#) requires that a business invest a minimum of \$12 million in capital investment causing the creation of 500 full-time jobs, or an investment of \$30 million causing the retention of 1500 full-time jobs.
 - Specific to coal mining and wind energy production.

Investment Credit: See above.

Sales/use tax refund on qualified investment: Yes, can be rewarded as part of the High-Impact Business Tax Credit.

Personal property tax abatement: Yes, can be rewarded as part of the High-Impact Business Tax Credit.

Indiana

Job credit: The [Headquarters Relocation Tax Credit](#) allows a credit against state income tax liability for costs incurred in relocating the headquarters. Annual worldwide revenue must be at least \$100 million, and the corporation must have at least 75 employees in Indiana.

Investment Credit: The [Hoosier Business Investment Tax Credit](#) provides a credit against income tax based on an analysis of the economic benefits of the proposed investment.

Sales/use tax refund on qualified investment: Refund of sales and use tax paid on [R&D equipment](#) only.

Personal property tax abatement: None.

Iowa

Job credit: Yes.

- The [High Quality Jobs program](#) requires businesses to meet wage threshold requirements. The size of the credit depends on the quality of the job, generosity of health insurance benefits, etc. and is determined by [this table](#).
- The New Jobs Tax Credit allows for a maximum credit of \$1,482 per employee hired.

Investment Credit:

- Refer to investment thresholds in [High Quality Jobs Program](#):
 - Thresholds are bracketed by investments less than \$100,000, to \$100,000 to \$499,999, to \$500,000+, and \$10,000,000 or more.

Sales/use tax refund on qualified investment: Yes.

- Sales tax refunds are associated with the [High Quality Jobs Program](#) with \$500,000+ level of investment.

Personal property tax abatement: Yes, at the local city/county discretion.

Kansas

Job credit: Firms can retain withholding tax by creating at least ten jobs within two years in urban areas and five new jobs elsewhere in the [Promoting Employment Across Kansas](#) program.

Investment Credit: The [High Performance Incentive Program](#) allows for a 10 percent corporate income tax credit. Firms must invest at least \$1 million in urban counties and \$50,000 elsewhere.

Sales/use tax refund on qualified investment: Remodeling costs, furnishings, machinery and equipment for qualified projects may qualify for an approved sales tax exemption.

Personal property tax abatement: None.

Kentucky

Job credit: See investment credit

Investment Credit:

- The [Kentucky Business Investment](#) program requires participants to create a minimum of 10 new jobs and invest a minimum of \$100,000. The new jobs are subject to wage and benefit requirements.
- The [Kentucky Small Business Investment Credit Program](#) provides for a tax credit to small businesses that hire at least one person and invest at least \$5,000 in qualifying equipment.
- The [Kentucky Reinvestment Act](#) provides tax credits to firms investing at least \$2,500,000.

Sales/use tax refund on qualified investment: Available to participants of the [Kentucky Enterprise Initiative Act](#).

Personal property tax abatement: None.

Louisiana

- Must meet minimum payroll threshold of \$250,000 for firms with less than 50 employees
- Firms with 50 or more employees must meet payroll threshold of \$500,000
- Reward is cash rebate of 5% or 6% of annual gross payroll for up to 10 years
- Must be in favored industry, distressed region, or have 50% of sales out-of-state

Investment Credit: None.

Sales/use tax refund on qualified investment: None. Sales and use tax refunds may apply to investments in enterprise zones.

Personal property tax abatement: None. Only restoration projects apply.

Maine

Job credit: Yes.

- The [Jobs and Investment Tax Credit](#) allows employers who invest \$5 million and create 100 new jobs within two years to obtain up to \$500,000 in tax credits to offset income tax liability.

Investment Credit: Yes (see above).

Sales/use tax refund on qualified investment: No (statutory exemptions only)

Personal property tax abatement: None.

Maryland

Job credit: Yes.

- The [Job Creation Tax Credit](#) provides a \$1,000 per-job tax credit to businesses that create new jobs, and \$1,500 to businesses creating jobs in economically-distressed areas. They must create at least 60 full-time jobs within 24 months, or 25 jobs in distressed areas. The business must be in a specified industry.

Investment Credit: The [Biotechnology Tax Credit](#) is allowed to individuals or entities that invest at least \$25,000 in a qualified Maryland biotechnology company.

Sales/use tax refund on qualified investment: None.

Personal property tax abatement: None.

Massachusetts

Job credit: Yes

- [Enhanced Expansion Project](#) requires participants to maintain at least 100 positions over five years. Credit depends on economic activity created.
- The Manufacturing Retention Project requires firms to create at least 25 manufacturing positions and/or retain at least 50 manufacturing positions for five years. Must be in a “gateway municipality” with population above 35,000 and income and education rates below state average.

Investment Credit: None.

Sales/use tax refund on qualified investment: None.

Personal property tax abatement: None.

Michigan

Job credit: Yes

- The Michigan Economic Growth Authority Credit is based on state personal income tax attributed to new full-time employees (p. 5).

Investment Credit:

- An “[entrepreneurial credit](#)” is available for businesses with less than \$25 million in gross receipts, create 20 jobs, and invest at least \$1.25 million. (p. 1)
- An investment tax credit is available for 2.9% of the investment in depreciable real and personal property with no specified minimum threshold. (p. 4)

Sales/use tax refund on qualified investment: None.

Personal property tax abatement: Yes. (p. 2, 4)

Minnesota

Job credit:

- [JOBZ program](#) requires participants to increase employment by at least five jobs or 20%, whichever is greater, and must pay at a level 100% of FPL of family of four. These are in enterprise zones.
- [Data Centers](#) must invest at least \$50 million and build a facility of at least 30,000 square feet.
- [R&D Centers](#) allow for a 10% tax credit for the first \$2 million in investment, and 2.5% thereafter in excess of \$2 million.

Investment Credit: See jobs credit.

Sales/use tax refund on qualified investment: None.

Personal property tax abatement: None.

Mississippi

Job credit:

- [Jobs Tax Credit](#) provides for tax credits for firms in certain industries who create jobs in certain regions of the state:
 - In Tier 1, 20 or more jobs must be created, and credit is 2.5% of payroll
 - In Tier 2, 15 or more jobs must be created, and credit is 5% of payroll
 - In Tier 3, 10 or more jobs must be created, and credit is 10% of payroll
 - Credit can offset up to 50% of state income tax liability
- The [Incentive Jobs Incentive Program](#) provides income tax withholding rebates to firms in certain industries hiring employees that pay above the average wage level of the county and provide basic health benefit plans.

Investment Credit: The [Manufacturing Investment Tax Credit](#) requires existing participating manufacturers to invest \$1,000,000 in buildings and/or equipment who can receive an investment credit equal to 5% of the eligible investment.

Mississippi (continued)

Sales/use tax refund on qualified investment: Yes.

- Manufacturers and custom processors may qualify for [sales and use tax exemptions on construction or expansion](#) or [broadband technology](#) in the three tiers:
 - Tier 1: 50% exemption
 - Tier 2: 50% exemption
 - Tier 3: 100% exemption

Personal property tax abatement: Exemptions may be granted at the local level by county or municipal governments.

Missouri

Job credit: The [Qualify Missouri Jobs](#) program requires firms to create 20 new jobs within two years if in a rural area or 40 new jobs within two years in other areas. Technology businesses must create 10 new jobs, and a “high-impact business” must create 100 new jobs within one year.

Investment Credit: The [Missouri BUILD Program](#) allows a tax credit for firms in eligible industries who invest a minimum of \$15 million, or \$10 million for an office industry, and create 500 jobs or 200 new jobs if an “office industry.”

Sales/use tax refund on qualified investment: Non-manufacturing property purchased through [Chapter 100](#) bonds is tax exempt.

Personal property tax abatement: Non-manufacturing property purchased through [Chapter 100](#) bonds is exempt from personal property tax.

Montana

Job credit: Manufacturers who increase employment by 30% are eligible for a tax credit equal to 1% of the wages paid to new employees.

Investment Credit: None.

Nebraska Advantage Act
Principal Business Activity Codes and Application Tier of Projects
with Active Signed Agreements
[Reporting Neb. Rev. Stat. § 77-5731\(3\)\(a\)](#)

For taxpayers with signed agreements, the following table shows the incentive options selected by industry group. The industry groupings are based on the Principal Business Activity (PBA) codes currently being used by the Internal Revenue Service (IRS).

Principal Business Activity Codes and Application Tier
of Signed Agreements

Category	PBA Code, Major Industry Group Titles	Tier	Number of Companies
Construction, Utilities, & Nonmetallic Mineral Products Manufacturing	22, 23, 327 — Construction, Electric and Gas, Stone, Clay, Glass, and Concrete Products	Tier 1	2
		Tier 2	3
Manufacturing	311, 312 — Meat and Food Products	Tier 1	7
		Tier 2	6
		Tier 4	10
	314, 322, 323, 325, 326 — Printing, Paper, Chemical, Plastics, Rubber, Textile, and Non-Durable Products	Tier 1	9
	Tier 2	7	
	Tier 4	8	
	321, 331, 332 — Primary and Fabricated Metals and Wood Product Manufacturing	Tier 1	2
		Tier 2	2
		Tier 4	1
	333, 334, 335, 336, 337, 339 — Machinery, Electronic and Other Electrical Equipment, Computer, Furniture, Transportation Equipment, Instruments, and Miscellaneous Manufacturing	Tier 1	10
		Tier 2	14
		Tier 3	1
		Tier 4	5
Wholesale & Retail Trade	42 — Durable and Non-Durable Goods	Tier 2	1
Transportation & Warehousing	48, 49 — Railroads, Trucking, Air Transportation, and Warehousing	Tier 2	4
Information & Data Processing	51 — Publishing, Communications, and Information and Data Processing Services	Tier 2	4
		Tier 4	5
		Tier 5	1
Finance, Insurance, & Real Estate	52 — Depository Institutions and Non-Depository Credit Institutions, Security and Commodity Brokers, Insurance Carriers, Insurance Agents, and Brokers	Tier 2	6
		Tier 4	8
Professional, Scientific, & Technical Services	54, 56, 62, 81 — Engineering, Business, Management, Scientific, Repair, Sanitary, and Miscellaneous Services	Tier 1	5
		Tier 2	16
		Tier 3	3

FTE = Full Time Equivalent

Projected Revenue Gains and (Losses) of the Nebraska Advantage Act for Tax Years 2010-2022, by Fiscal Year

Reporting Neb. Rev. Stat. § 77-5731(l)

Incentive tax credits (ITC) can influence the Nebraska economy positively, and those economic effects can, in turn, impact state revenue. Using a Computable General Equilibrium (CGE) model, the fiscal impacts of the program are estimated over the next ten years. This estimate is based upon completed and ongoing LB 775 projects, and ongoing Nebraska Advantage Act projects. These assumptions will be modified in the future with experience gained from Nebraska Advantage Act projects.

To analyze the fiscal impact of the tax credits, the dynamic Tax Revenue Analysis In Nebraska (TRAIN) model, a custom-built Nebraska CGE model, is used.¹ With TRAIN, the Nebraska economy is divided into 74 distinct sectors in order to explicitly trace economic flows. The TRAIN model is constructed based on Walrasian general equilibrium theory, which assumes all markets adjust through price changes, so the TRAIN analysis works well for analyzing structural changes and their consequences in the long run, but not for dealing with short-term fluctuations.

TRAIN details state government sectors in order to capture the sensitivity of state government revenue and expenditure flows. TRAIN calculates most tax impacts within the model, without requiring additional calculations outside the model to obtain final results. This allows the researcher to avoid rigid assumptions that may deliver vague results.

TRAIN mathematically expresses the Nebraska economy with over 1,300 equations and a social accounting matrix (SAM) database. It has 28 industrial sectors, two factor sectors, an investment sector, nine household sectors, 33 government sectors, and a rest-of-world sector.

The critical assumption when constructing a general equilibrium model is that the initial condition of the economy is in equilibrium. Therefore, the model is constructed so that its equilibrium replicates observed data in the base year. The date for TRAIN is the latest SAM and parameters. The estimate of tax credits used is based on the history of the LB 775 program, and the first use of credits under Nebraska Advantage.

Future revenue gains and (losses) due to Nebraska's tax incentive programs are estimated based on the analysis of historical LB 775 and Nebraska Advantage Act data, national forecasting analysis, and the TRAIN model. The possible revenue losses by tax credit claims are estimated mainly based on the analysis of LB 775 projects that includes 178 completed and 251 active projects, and nine active Nebraska Advantage Act projects. The LB 775 and Nebraska Advantage Act data contain information about the amount of earned tax credits, the amount of credit used by tax types, the amount of qualified investments, and the number of jobs. These data provide reliable indicators for future Nebraska Advantage Act tax credit claims. Because industrial investment associated with tax credit is influenced by the business cycle, US macroeconomic forecasts from IHS Global Insight are adapted for projecting business activity that generates the earning and use of incentive tax credits.

The table below provides two estimates of employment due to the Nebraska Advantage Act. The first, labeled "Estimated Number of New Jobs for Qualifying Tax Credits," is an estimate of the number of FTE jobs that will be used to qualify for tax credits by year. The second estimate, "Estimated Net New Economic Job Increases (Decreases)," is an estimate of the total number of new jobs created as a result of Nebraska Advantage Act program investment. This number is smaller than the first number, which represents more of an accounting number of employees at a project, because a number of these jobs would have occurred without the incentive tax credits under the Nebraska Advantage Act. The second number includes both direct and indirect employment in Nebraska. That is, it includes both the direct new economic jobs at the projects and the indirect new jobs throughout the Nebraska economy that are created to support the new investment and direct employment due to the Nebraska Advantage Act.

¹A more detailed description of the TRAIN model is available upon request.

Nebraska Advantage Rural Development Act

Reporting Requirements, Neb. Rev. Stat. § 77-27,195

Description of Benefits

Summary of Qualifying Activity

Project-specific Benefits Approved

Nebraska Advantage Rural Development Act Reporting Requirements

Neb Rev. Stat. § 77-27,195 provides:

(1) The Tax Commissioner shall prepare a report identifying the amount of investment in this state and the number of equivalent jobs created by each taxpayer claiming a credit pursuant to the Nebraska Advantage Rural Development Act.

The report shall include the amount of credits claimed in the aggregate.

The report shall be issued on or before March 15 of each year beginning with March 15, 1988, through March 15, 2006, for all credits allowed during the previous calendar year. The report shall be issued on or before July 15 of each year beginning with July 15, 2007, for all credits allowed during the previous calendar year.

(2) Beginning with applications filed on or after January 1, 2006, except for livestock modernization or expansion projects, the report shall provide information on project-specific total incentives used every two years for each approved project and shall disclose

(a) the identity of the taxpayer,

(b) the location of the project, and

(c) the total credits used and refunds approved during the immediately preceding two years expressed as a single, aggregated total.

The incentive information required to be reported under this subsection shall not be reported for the first year the taxpayer attains the required employment and investment thresholds. The information on first-year incentives used shall be combined with and reported as part of the second year. Thereafter, the information on incentives used for succeeding years shall be reported for each project every two years containing information on two years of credits used and refunds approved. The incentives used shall include incentives which have been approved by the Department of Revenue, but not necessarily received, during the previous two calendar years.

(3) For livestock modernization or expansion projects, the report shall disclose

(a) the identity of the taxpayer,

(b) the total credits used and refunds approved during the preceding calendar year, and

(c) the location of the project.

(4) No information shall be provided in the report that is protected by state or federal confidentiality laws.

Nebraska Advantage Rural Development Act

Description of Benefits

General Information:

The Nebraska Advantage Rural Development Act requires a taxpayer involved in a qualifying business to file an application with the Department. For a list of qualified business activities, [click here](#). There are three different application levels under Nebraska Advantage Rural Development: Level 1, Level 2, and Livestock Modernization.

Application Information:

An application may be filed on or after the first day of the tax year. The application requests the total amount of expected credits for additional investment and employment in the year the application is filed and the following tax year. There is a statutory limit on the total benefits that may be approved for a calendar year. The requested benefits are applied to the limit in the order in which the complete applications were filed.

- [Application for Nebraska Advantage Rural Development Level 1](#)
- [Application for Nebraska Advantage Rural Development Level 2](#)
- [Application for Nebraska Advantage Livestock Modernization](#)

For applications filed on or after October 1, 2009, taxpayers must utilize [E-verify](#) to verify that all new employees are legally able to work in the United States, as required by [Neb. Rev. Stat. § 77-27,188.03](#).

Rural Development Act Available Funds and Requested Benefits:

Year Ending	Number of Applicants	Total Requested Benefits	Statutory Limit on Benefits
12/31/2011	7	\$ 2,412,750	\$ 4,000,000
12/31/2010	11	829,750	4,000,000
6/30/2010	10	1,271,854	4,000,000
6/30/2009	34	3,000,000	3,000,000
6/30/2008	34	3,000,000	3,000,000
6/30/2007	15	1,555,250	3,000,000
6/30/2006	15	2,086,000	2,500,000
6/30/2005	12	713,000	2,500,000

Requirements by Application Level:

Level 1. Project applications under Level 1 require a plan of expansion that includes a minimum of two new full-time equivalent (FTE) employees who are paid at least the minimum required wage, and \$125,000 of net, new investment. The expansion must occur in a county with a population of less than 15,000 inhabitants, in an enterprise zone, a village, or an eligible census tract. Level 1 applications were first accepted for tax years beginning on or after January 1, 2006. For more information on the required wage rate and whether a location is eligible under Level 1, [click here](#).

Level 2. Project applications under Level 2 require a plan of expansion that includes a minimum of five new FTE employees who are paid at least the minimum required wage, and \$250,000 of net, new investment. The expansion must occur in a county with a population of less than 25,000 inhabitants, in an enterprise zone, or a city of second class. Level 2 applications were first accepted for tax years beginning on or after January 1, 2004. For more information on the required wage rate and whether a location is eligible under Level 2, [click here](#).

Livestock Modernization. Livestock Modernization is defined as the construction, improvement, or acquisition of depreciable buildings, facilities, or equipment for livestock housing, confinement, feeding, production, and waste management. The project must have a net, new investment of at least \$50,000. The expansion may occur in any county in Nebraska. There is no employment increase required. Livestock Modernization project applications were first accepted as of January 1, 2007.

Benefits by Application Level:

Level 1 and Level 2. If the Level 1 or Level 2 taxpayer reaches and maintains the required levels of investment and employment, it is eligible for a \$3,000 credit for each new FTE employee, and a \$2,750 credit for each \$50,000 net gain in qualified investment. The credits may be used: to obtain a refund of state sales and use taxes paid; against the income tax liability of the taxpayer; or as a refundable credit claimed on the income tax return of the taxpayer.

Livestock Modernization. If the Livestock Modernization taxpayer reaches and maintains the required level of investment, it is eligible to earn credits at 10% of investment. Each project is limited to a maximum of \$30,000 in credits. The credits may be used: to obtain a refund of state sales and use taxes paid; against the income tax liability of the taxpayer; or as a refundable credit claimed on the income tax return of the taxpayer.

Nebraska Advantage Microenterprise Tax Credit Act

Reporting Requirements, Neb. Rev. Stat. § 77-5907

Description of Benefits

Analysis of Nebraska Advantage Microenterprise Tax Credit Act

Nebraska Advantage Microenterprise Tax Credit Act Reporting Requirements

[Neb. Rev. Stat. § 77-5907](#) provides:

The Tax Commissioner shall prepare a report identifying the following aggregate amounts for the previous calendar year:

- (1) [The amount of projected employment and investment anticipated by taxpayers receiving tentative tax credits and the tentative tax credits granted;](#)
- (2) [the actual amount of employment and investment made by taxpayers that were granted tentative tax credits in the previous calendar year;](#)
- (3) [the tax credits used;](#) and
- (4) [the tentative tax credits that expired.](#)

The report shall be issued on or before July 15, 2007, and each July 15 thereafter. No information shall be provided in the report that is protected by state or federal confidentiality laws.

Nebraska Advantage Microenterprise Tax Credit Act Description of Benefits

General Information:

The Nebraska Advantage Microenterprise Tax Credit Act allows an individual actively involved in the day-to-day activities of a microbusiness, which is located in a distressed area, to apply for tax credits.

Application Process and Benefits Received:

The individual actively involved in the microbusiness must file an application, which describes their involvement, the expected investment or employment growth, and the tentative tax credits for the year of application and the following year. Each individual, and any related parties, are limited to a \$10,000 lifetime tax credit.

[Application for Nebraska Advantage Microenterprise Tax Credit Act](#)

Applications requesting up to \$2 million may be authorized for each calendar year.

The individual earns a refundable income tax credit equal to 20% of the microbusiness' new investment or employment, not to exceed the amount of tentative tax credits approved based on the application. New investment is an increase in purchases of buildings and depreciable assets, repairs and maintenance, advertising, legal, or professional services in the year of application and the following year, as compared to the year prior to application. New employment is an increase in employee compensation and the employer cost of health insurance in the year of application and the following year, as compared to the year prior to application. The individuals claim the tax credit when filing their Nebraska income tax return.

Employment Criteria

The microbusiness must have five or fewer full-time equivalent (FTE) employees at the time of application to participate in the Nebraska Advantage Microenterprise Tax Credit Act. For applications filed on or after October 1, 2009, taxpayers must utilize [E-verify](#) to verify that all new employees are legally able to work in the United States, as required by [Neb. Rev. Stat. § 77-5908](#).

Location Criteria

The microbusiness must be located at a site which meets the statutory requirements related to population decline or per capita income level. All locations in the state are eligible other than portions of Washington and Lancaster counties. For more specific information on whether a location is eligible, [click here](#).

Description of Benefits

Summary of Benefits Approved

Nebraska Advantage Research and Development Act Reporting Requirements

[Neb Rev. Stat. § 77-5807](#) provides:

Beginning July 15, 2007, and each July 15 thereafter the Tax Commissioner shall prepare a report stating [the total amount of credits claimed on incometax returns or as refunds of sales and use tax during the previous calendar year](#).

No information shall be provided in the report that is protected by state or federal confidentiality laws.

Nebraska Advantage Research and Development Act Description of Benefits

General Information:

The Nebraska Advantage Research and Development tax credit is available for tax years beginning on or after January 1, 2006. A business firm, which incurs research and development expenditures, is eligible for a Nebraska tax credit. If the firm does business within and without Nebraska, the federal tax credit must be apportioned before calculating the Nebraska tax credit. No business firm may claim the credit for the first time in a tax year beginning after December 31, 2015.

Description of Benefits:

The research and development tax credit may be claimed by a business firm for five years.

Tax Year 2006. A business firm which incurs research and development expenditures, as defined in §174 of the Internal Revenue Code (IRC), may claim a tax credit equal to three percent of the increase in Nebraska research and development expenditures in the current year, as compared to the average of the expenditures in the two years prior to first claiming the tax credit.

Tax Years 2007 and 2008. A business firm which incurs research and development expenditures, as defined in §174 of the IRC, may claim a credit equal to 15 percent of the federal tax credit allowed.

Tax Years 2009 and Later. A business firm which incurs research and development expenditures, as defined in §174 of the IRC, may claim the enhanced research credit of 35 percent for research activity on the campus of a college or university in Nebraska, and a credit equal to 15 percent of the federal tax credit allowed for activities that are not on-campus.

For credits claimed in a tax year beginning on or after January 1, 2009, taxpayers must utilize [E-verify](#) to verify that all new employees are legally able to work in the United States, as required by [Neb. Rev. Stat. § 77-5808](#).

 - (m) the credits outstanding, and
 - (n) the value of personal property exempted by class in each county.
 - (4) No information shall be provided in the report that is protected by state or federal confidentiality laws.
-

Employment and Investment Growth Act

Description of Benefits

General Information:

The Employment and Investment Growth Act (LB 775) allows a taxpayer involved in a qualified business to earn and use benefits for investment and employment growth. For a list of qualified and non-qualified business activities, [click here](#). There are three options that have varying requirements for investment and employment and for benefits.

Application Information:

No new Employment and Investment Growth Act applications could be filed after December 31, 2005.

Application Options:

Each of the options requires a stated increase in the investment and employment levels by the end of the attainment period. The increase in investment is equal to the value of qualified property placed in service at the project after the date of application. Qualified property means any tangible property of a type subject to depreciation, amortization, or other recovery under the Internal Revenue Code of 1986, as amended, or the components of such property, that will be located and used at the project or at the residence of a teleworker working in Nebraska. Qualified property does not include aircraft, barges, motor vehicles, railroad rolling stock, or watercraft or property rented to another person.

The increase in employment is equal to the number of new full-time equivalent (FTE) employees at the project. The number of new, FTE employees is calculated using the number of hours paid in the year. One FTE employee is equal to 40 hours per week for the entire year. A taxpayer in a qualified business may file an application electing one of the following options:

- **\$20 Million in Investment**
- **\$3 Million in Investment and 30 FTE Employees.** One FTE is equal to 40 times the number of weeks in a year.
- **\$10 Million in Investment and 100 FTE Employees.** A taxpayer applying under this option has a two-part agreement. When the project attains the minimum required levels of \$3 million investment in qualified property and 30 FTEs, the project is eligible for all benefits of a \$3 million and 30 FTE project. When the project attains the \$10 million and 100 FTEs, the taxpayer is also eligible for certain property tax exemptions.

Description of Time Periods:

Year

Year means the federal taxable year of the taxpayer.

Base Year

The base year is the year immediately preceding the year during which the application was filed.

Attainment Period

The attainment period is the number of years, including the year of application, in which the taxpayer must meet the minimum levels of investment and employment required for benefits. All options must meet the minimum required levels within seven years.

Entitlement Period

The entitlement period is the time period within which the taxpayer generally can both earn and use incentives. This period includes the year the taxpayer meets the minimum chosen levels of investment and employment, and the next six years.

Carryover Period

During the carryover period, no additional credits are earned, but unused credits earned before the end of the entitlement period may be used. The carryover period begins the year after the end of the entitlement period and ends at the end of the eighth year after the entitlement period.

Description of Benefits - Benefits by Application Level

	\$20M	\$3M & 30 FTE	\$10M & 100 FTE
Benefit			
Sales Factor Election	✓	✓	✓
Direct Refund	✓	✓	✓
Investment Credit		✓	✓
Compensation Credit		✓	✓
Personal Property Tax Exemption			✓
Use of Credits			
Sales and Use Tax Refund		✓	✓
Income Tax Refund		✓	✓
Distribution of Credits		✓	✓

Direct Refund

A direct refund is the refund of Nebraska and local sales and use taxes paid on the purchase of qualified property for use at the project, or on the purchase or lease of aircraft for use in connection with the project, which is placed in service during the attainment and entitlement periods. The aircraft may not be used to transport an elected official, or for fundraising for an elected official.

Qualified property is any tangible property of a type subject to depreciation, amortization, or other recovery under the Internal Revenue Code of 1986, or the components of such property, that will be used at the project. Qualified property does not include aircraft, barges, motor vehicles, railroad rolling stock, watercraft, or property that is rented to another person.

Investment Credit

Investment credit is a credit equal to ten percent of the investment made in qualified property at the project during the attainment or entitlement periods. The credit on qualified property placed in service, from date of application through the end of the tax year in which the minimum required levels are met, is earned in the qualification year. A credit is also earned on qualified property placed in service in other years of the entitlement period. Investment credits may be used for a sales and use tax refund or an income tax refund.

Compensation Credit

For each year of the entitlement period, the compensation credit is equal to five percent times the increase in compensation at the project. The increase in compensation is equal to the taxable compensation of resident employees and base-year employees at the project in the current year minus the average compensation at the project in the year times the number of base-year employees. The compensation credit may be used for a sales and use tax refund or an income tax refund.

Personal Property Tax Exemption

A taxpayer may claim a personal property tax exemption on three types of property acquired after the date of application:

1. Turbine powered aircraft;
2. Computer systems and specific peripherals that require environmental controls of temperature and power; and
3. Business equipment involved directly in the processing of agricultural products.

Turbine powered aircraft may be exempted from the first January 1 following the date of acquisition of the property through the sixteenth December 31 after the filing of the application. The aircraft may not be used to transport an elected official, or for fundraising for an elected official.

The computer systems and peripherals and agricultural processing equipment may be exempted from the first January 1 following the end of the year during which the required levels were exceeded through the sixteenth December 31 after the filing of the application.

Sales and Use Tax Refund

This is a refund of Nebraska and local sales and use taxes paid on otherwise non-refundable purchases used at the project. The credits must be earned in a prior tax year and can be used during the entitlement and carryover periods.

Income Tax Refund

Credits may be used to reduce the income tax liability of the taxpayer's entire unitary group. The credits may be used in the year earned and are available during the entitlement and carryover periods.

Credits earned by a partnership, limited liability company, a subchapter S corporation, or an estate or trust may be distributed in the same ratio as income. The recipient of the distributed credit may use the credit to reduce their income tax liability from the year of distribution through the end of the carryover period.

Employment and Investment Growth Act

¹ If a company fails to maintain either the minimum employment or investment required by its agreement, one-seventh of the refunds and one-seventh of the credits used are recaptured, and one-seventh of the credit carryover at the end of the entitlement period is recaptured for each year the company is below the required levels. Through December 31, 2011, 91 projects were in recapture. \$24,955,028 in repayment due has been netted from approved refund claims, and \$29,863,920 plus interest has been repaid in cash. Credit carryover for companies that have reached the end of the entitlement period has been reduced by \$40,413,932.

² Credits Outstanding = Credits Earned less Credits Used, Recapture From Credits, and Credits Expired.

Total	88,594	\$ 31,708

¹Due to a decline in the number of projects reporting, Electric and Gas, Construction, Wood Product Manufacturing, Stone, Clay, Glass, and Concrete Products, Primary and Fabricated Metals have been combined with Machinery, Electronic and Other Electrical Equipment, Computer, Furniture, Transportation Equipment, Instruments, and Miscellaneous Manufacturing.

²The total weighted average salary is calculated by multiplying the number of FTEs for each project reporting positive FTE growth, times the average salary of new employees at that project.

Employment and Investment Growth Act

Estimate of Personal Property Value Exempted

Reporting Neb. Rev. Stat. § 77-4110(3)(n)

Property Tax Benefit:

When a company applies for LB 775 benefits under the \$10 million investment and 100 FTE option, a personal property tax exemption is available on:

- Turbine-powered aircraft used in connection with the project.

The Department conducts field reviews to verify that the companies have met the minimum of \$10 million investment and 100 FTEs to qualify for the property tax exemption on the following property used in connection with the project:

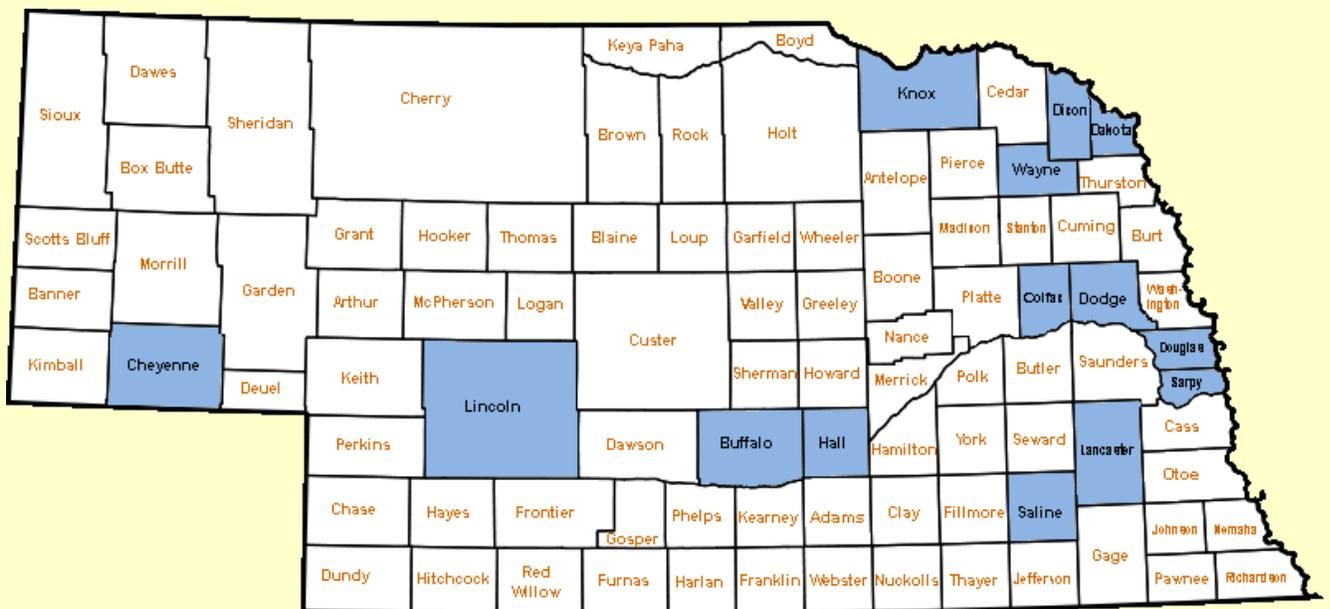

- Computer systems, plus certain peripheral components connected to such computers; and
- Personal property, which is business equipment located in a single project involved directly in the manufacture or processing of agricultural products.

The following tables show the value of personal property exempted for 2011, and cumulatively for tax years 1988-2011.

Estimate of Personal Property Value Exempted by Class in Each County (Tax Year 2011)

County	Airplanes	Computer Equipment	Ag Processing Equipment	TOTAL

Personal Property Exemption by County (Cumulative for Tax Years 1988 – 2011)

Projected Revenue Gains or (Losses) of Employment and Investment Growth Act, Quality Jobs Act, and Invest Nebraska Act for Tax Years 1987-2022 Projects by Fiscal Year

Reporting Neb. Rev. Stat. § 77-4110(3)(k)

Incentive tax credits (ITC) can influence the Nebraska economy positively, and those economic effects can, in turn, impact state revenue. Using a Computable General Equilibrium (CGE) model, the fiscal impacts of the program are estimated over the next ten years. This estimate is based upon completed and ongoing LB 775 projects.

To analyze the fiscal impact of the tax credits, the dynamic Tax Revenue Analysis In Nebraska (TRAIN) model, a custom-built Nebraska CGE model, is used.¹ With TRAIN, the Nebraska economy is divided into 74 distinct sectors in order to explicitly trace economic flows. The TRAIN model is constructed based on Walrasian general equilibrium theory, which assumes all markets adjust through price changes, so the TRAIN analysis works well for analyzing structural changes and their consequences in the long run, but not for dealing with short-term fluctuations.

TRAIN details state government sectors in order to capture the sensitivity of state government revenue and expenditure flows. TRAIN calculates most tax impacts within the model, without requiring additional calculations outside the model to obtain final results. This allows the researcher to avoid rigid assumptions that may deliver vague results.

TRAIN mathematically expresses the Nebraska economy with over 1,300 equations and a social accounting matrix (SAM) database. It has 28 industrial sectors, two factor sectors, an investment sector, nine household sectors, 33 government sectors, and a rest-of-world sector.

The critical assumption when constructing a general equilibrium model is that the initial condition of the economy is in equilibrium. Therefore, the model is constructed so that its equilibrium replicates observed data in the base year. The data for TRAIN are the latest SAM and parameters. The estimate of tax credits used is based on the history of the LB 775 program.

Future revenue gains and (losses) due to LB 775 are estimated based on the analysis of historical LB 775 data, national forecasting analysis, and the TRAIN model. Possible revenue losses by tax credits claimed are estimated based on the analysis of LB 775 projects that includes 178 completed and 251 active projects. The LB 775 data contain information about the amount of earned tax credits, the amount of credit used by tax types, the amount of qualified investments, and the number of jobs. These data provide reliable indicators for future tax credit claims. Because industrial investment associated with tax credit is influenced by the business cycle, US macroeconomic forecasts from IHS Global Insight are adapted for projecting business activity that generates the earning and use of incentive tax credits.

The table below provides two estimates of employment due to LB 775. The first, labeled "Estimated Number of New Jobs for Qualifying Tax Credits," is an estimate of the number of FTE jobs that will be used to qualify for tax credits by year. The second estimate, "Estimated Net New Economic Job Increases (Decreases)," is an estimate of the total number of new jobs created as a result of LB 775 program investment. This number is smaller than the first number, which represents more of an accounting number of employees at a project, because a number of these jobs would have occurred without the incentive tax credits under LB 775. The second number includes both direct and indirect employment in Nebraska. That is, it includes both the direct new economic jobs at the projects and the indirect new jobs throughout the Nebraska economy that are created to support the new investment and direct employment due to LB 775.

¹A more detailed description of the TRAIN model is available upon request.

Employment Expansion & Investment Incentive Act (LB 1124, as amended by LB 270)

Reporting Requirements, Neb. Rev. Stat. § 77-27,195

Description of Benefits

Business Activity Summary

Enterprise Zone Act

Employment Expansion and Investment Incentive Act Reporting Requirements

[Neb. Rev. Stat. § 77-27,195](#) provided (prior to amendment by LB 608 in 2003):

Report; contents.

(1) The Tax Commissioner shall prepare a report identifying the [amount of investment in this state and the number of equivalent jobs created by each taxpayer](#) claiming a credit pursuant to the Employment Expansion and Investment Incentive Act.

[The report shall include the amount of credits claimed in the aggregate.](#)

The report shall be issued on or before July 15 of each year beginning with July 15, 2007, for all credits allowed during the previous calendar year.

(2) In the report for any year in which a taxpayer located in an enterprise zone designated pursuant to the Enterprise Zone Act claimed a credit pursuant to subsection (3) of section 77-27,188, the Tax Commissioner shall identify

(a) [the amount of investment made in each enterprise zone by all taxpayers claiming credits,](#)

(b) [the number of jobs created in each enterprise zone by all taxpayers claiming credits,](#)

(c) [the number of jobs created in each enterprise zone by all taxpayers claiming credits held by residents of the enterprise zone,](#) and

(d) [the average wage on an hourly basis or the average annual salary of new jobs created in each enterprise zone by all taxpayers claiming credits.](#)

Employment Expansion and Investment Incentive Act

Description of Benefits

General Information:

The Employment Expansion and Investment Incentive Act (LB 270) allowed a qualified taxpayer to receive refunds of sales and use taxes paid, and earn credits that may be used for Nebraska income tax and other sales and use taxes. In order to earn tax credits under the Employment Expansion and Investment Incentive Act, a company must be involved in a qualifying business activity, have an increase of \$75,000 in qualifying investment, and two new full-time equivalent (FTE) employees within the taxable year. [Click here for a list of qualified business activities.](#)

Application Information:

The Employment Expansion and Investment Act was only in effect for tax years before 2004. This program did not require the filing of an application. A taxpayer was required to file a schedule with the Nebraska income tax return to claim the tax credits.

Description of Benefits:

The Employment Expansion and Investment Incentive Act provides tax credits to taxpayers who hired additional employees and invested in qualified property. A taxpayer can use the tax credits to reduce income tax liability by half, and receive refunds of Nebraska sales and use taxes paid. The taxpayer may distribute credits to the owners of the business entity in the same manner as income is distributed. The recipients can use the credits to reduce their income tax liability by half.

Initially, credits were established by increasing employment by at least two resident FTEs and making a minimum investment of \$75,000 in the same year. Credits could also have been established by additional employee increases of at least two Nebraska resident FTEs without a corresponding investment increase during the next five years. A taxpayer earned \$1,500 for each new employee and \$1,000 for each increment of \$75,000 in net, new investment.

The [Nebraska Employment and Investment Credit Computation, Form 3800N](#), filed with a tax return is the method to report credits earned, investment made, and jobs created for employees.

If a taxpayer failed to maintain the required levels of investment and employment for at least two years after the year for which the credit was first allowed, part of the used and unused credits are subject to recapture. During the subsequent two years, the taxpayer must repay the state one-third of the amount of the credit subject to recapture for each year that the taxpayer did not maintain the required levels.

Any credit carryover remaining at the end of the fifth year expires.

Activity as of December 31, 2011:

No new investment or jobs were reported and no credits were claimed.

Employment Expansion and Investment Incentive Act Business Activity Summary

Reporting Neb. Rev. Stat. § 77-27,195(1)

	Total ¹
Investment	\$ 1,714,374,492
Employees	29,685²
Tax Credits	63,125,496³
Enterprise Zone Tax Credits	<u>887,000</u>

Tax Credits Used:	
Income Tax	29,687,987
Sales Tax	<u>22,523,180</u>
Total Tax Credits Used	\$ 52,211,167
Tax Credits Recaptured:	
Income Tax	2,569,240
Sales Tax	309,426
Unused Credit from Carryover	<u>2,866,329</u>
Total Tax Credits Recaptured	\$ 5,744,995
Tax Credits Expired	\$ 3,206,922

¹To maintain confidentiality, credits earned or credits used in 2010 or 2011 are not reported.

²LB 886 which was passed in 1997 changed the definition of a new employee from a full-time employee to a full-time equivalent employee operative for tax years beginning on or after January 1, 1998. This employee number includes full-time employees for 1997 and earlier tax years, and full-time equivalent employees for 1998 and later tax years.

³Credits earned are not a multiple of \$1,500 per employment credit and \$1,000 per investment credit due to a settlement.

Enterprise Zone Act

Reporting Neb. Rev. Stat. § 77-27,195(2)

Incentive credits earned under the Enterprise Zone Act were based on the provisions of the Employment Expansion and Investment Incentive Act. The Enterprise Zone Act provided a higher employment credit for companies engaged in a qualifying business within the defined enterprise zones and employing residents of the zone. If at least 50 percent of the new employees resided within the enterprise zone, then the taxpayer also received additional credits for new investment. [Click here for more detailed information.](#)

The credits provided under this subsection were not to exceed \$75,000 in any one tax year. In addition to the requirements to maintain the employment and investment levels for two years, taxpayers earning credits under the Enterprise Zone Act for tax years starting before January 1, 2001 must have maintained the number of new employees residing in the enterprise zone.

The [Nebraska Employment and Investment Credit Computation, Form 3800N](#), filed with a tax return is the method to report credits earned, investment made, jobs created for employees in total, and for residents of the zone.

A taxpayer who earned credits in tax years before 2004 may use these credits during the five year carryover period. The taxpayer must file to show maintenance of the required investment and employment levels for two years.

If a taxpayer failed to maintain the required levels of investment and employment for at least two years after the year for which the credit was first allowed, part of the used and unused credits are subject to recapture. During the subsequent two years, the taxpayer must repay the state one-third of the amount of the credit subject to recapture for each year that the taxpayer did not maintain the required levels.

In 2011, taxpayers within the enterprise zones did not report any activity.

Invest Nebraska Act (LB 620)

Reporting Requirements, Neb. Rev. Stat. § 77-5542

Description of Benefits

Active Signed Agreements

Invest Nebraska Activity as of December 31, 2011

To maintain confidentiality, no 2011 information is reported due to the small number of companies reporting activity.

Invest Nebraska Act Reporting Requirements

Neb. Rev. Stat. § 77-5542 provides:

- (1) The Department of Revenue shall submit an annual report to the Legislature no later than July 15 each year. The report shall list
 - (a) the agreements which have been signed during the previous calendar year,
 - (b) the agreements which are still in effect,
 - (c) the identity of each company, and
 - (d) the location of each project
 - (2) The report shall also state by industry group
 - (a) the amount of wage benefit credits and investment tax credits allowed under the Invest Nebraska Act,
 - (b) the number of direct jobs created at the projects,
 - (c) the amount of direct capital investment under the act,
 - (d) the estimated wage levels of jobs created by the companies at the projects,
 - (e) the estimated indirect jobs and investment created on account of the projects, and
 - (f) the projected future state and local revenue gains and losses from all revenue sources on account of the direct and indirect jobs and investment created on account of the project.
 - (3) No information shall be provided in the report that is protected by state or federal confidentiality laws.
-

Invest Nebraska Act

Description of Benefits

General Information:

The Invest Nebraska Act (LB 620) allows a qualified business to receive a wage benefit credit, or an alternate investment credit. The Invest Nebraska Act required a separate application subject to approval by the Invest Nebraska Board. The members of the board were the Governor, the State Treasurer, and the chairperson on the Nebraska Investment Council.

Application Information:

No new applications could be filed after June 1, 2005.

Requirements by Application Level:

There are three levels that qualified businesses could choose from:

- \$10 million in investment in qualified property and at least 25 new full time equivalent (FTE) employees whose annual wage exceeds the Nebraska average annual wage. This option is only available for projects located outside of counties with 100,000 or more in population.
- \$50 million in investment in qualified property and at least 500 new FTE employees, OR \$100 million in investment and at least 250 new FTE employees. The new employees' annual wage must exceed 110% of the Nebraska average annual wage.
- \$200 million investment in qualified property and at least 500 new FTE employees, whose annual wage exceeds 120% of the Nebraska average annual wage.

Description of Benefits:

A company that reaches and maintains the selected levels is eligible for benefits. An eligible company earns a wage benefit credit from zero to five percent of the taxable wages paid to new employees earning more than the required wage level. A company selecting the \$200 million and 500 FTE option may receive, in lieu of a wage benefit credit, an alternate investment tax credit of 15 percent of the investment.

The company is to expend at least the value of the wage benefit credit, or alternate investment tax credit, for company training programs, employee benefit programs, educational institution training programs, or workplace safety programs.

The agreement specifies the option elected and the available benefits. The wage benefit credit and the alternative investment tax credit may be used for up to 100% of the income tax liability. The wage benefit credit may also be used to retain a portion of the taxpayer's employer payroll withholding tax liability.

Activity as of December 31, 2011:

Credits were allowed under LB 620; however, to maintain confidentiality, no information is reported.

-

Quality Jobs Act Description of Benefits

General Information:

The Quality Jobs Act (LB 829) allowed a qualified business to receive a wage benefit credit, or retain payroll withholding tax. The Quality Jobs Act required a separate application subject to approval by the Quality Jobs Board. The members of the board were the Governor, the State Treasurer, and the chairperson of the Nebraska Investment Council.

Application Information:

No new Quality Jobs Act applications could be filed after February 1, 2000.

Requirements by Application Level:

There were two levels that qualified companies could choose from:

- \$50 million investment in qualified property and at least 500 new full time equivalent (FTE) employees hired; and
- \$100 million in investment in qualified property and at least 250 new FTE employees hired.

Benefits:

A company that reached and maintained the selected levels was eligible for a wage benefit credit. The company was to expend at least the value of the wage benefit credit for company training programs, employee benefit programs, educational institution training programs, or workplace safety programs. The company's agreement specifies whether the election has been made to use the credit against the company's income tax, or to retain a portion of the taxpayer's employer's payroll withholding tax liability as designated by the employees.

Activity as of December 31, 2011:

Credits were allowed under LB 829; however, to maintain confidentiality, no information is reported.
