

LB 775 INDUSTRY GROUP DETAIL

Number of New Jobs Created

Table 11 shows the number of new full-time equivalent (FTE) employees at the projects as compared to the prior year.

A full-time equivalent employee equates to an employee who works 40 hours a week. An employee who works 60 hours a week would be counted as 1.5 FTE employees.

The increase in FTE employees is calculated by subtracting the FTE employees at the project in the tax year prior to the year of application from the number of FTE employees in the reporting tax year.

A company is required to maintain a minimum 30 FTE employee increase to avoid recapture. However, a company that previously showed a FTE employee increase of 80 could fall back to a 30 FTE employee increase without going into recapture.
