

LB 775 INDUSTRY GROUP DETAIL

Total Number of People Employed in Nebraska by Qualified LB 775 Applicants

Table 14 shows a comparison of the total number of people employed in Nebraska by the qualified LB 775 applicants at the end of the quarter prior to the date of application with the total number of people employed in Nebraska on the most recent reporting date. No information is included for projects which are beyond the end of the seven-year entitlement period and are no longer earning new benefits. The increase in total number of people employed for projects in the entitlement period per Table 14 may be less than the cumulative increase in full-time equivalent employees reported in Table 13 for all projects which have had qualified employment growth.

The number of people employed is not measured the same as the number of full-time equivalent (FTE) employees shown previously in this report. The numbers shown in this table are simply the number of people employed by the qualified LB 775 applicants statewide in Nebraska on a specific date, without regard to the number of hours those people worked.
