

SECTION L

Insurance Premium Tax

BASIC PROVISIONS AND TAX BASE

Each insurance company organized as a stock, mutual, assessment, or reciprocal insurer, and each nonprofit hospital service corporation, except fraternal benefit societies, which transact business in Nebraska is required to pay a tax to the Director of Insurance (Director), on or before March 1 of each year. This tax is in lieu of any other intangible property tax. The tax rate is one percent of the gross amount of direct written premiums received by the insurance company during the preceding calendar year for business done in Nebraska, except business done for group sickness and accident insurance, the rate of tax is five-tenths of one percent.

The taxable premiums include premiums paid on the lives of persons residing in Nebraska and premiums paid for risks located in Nebraska, whether or not the insurance was written in Nebraska. When insurance is written on a group which exceeds 500 lives, the taxable premium includes the portion of the premium paid for insurance on Nebraska residents or risks located in Nebraska. The tax also applies to premiums received by domestic companies for insurance written on individuals residing outside Nebraska, or risks located outside Nebraska if no comparable tax is paid by the direct writing domestic company to any other appropriate taxing authority.

The Director is required to transmit 50% of the taxes paid to the Insurance Tax Fund, 40% to the General Fund, and 10% to the Mutual Finance Assistance Fund promptly upon completion of an audit and examination of the tax returns submitted by the insurers, but in no event later than May 1 of each year. Commencing with the taxable year ending December 31, 2001, all premium and retaliatory taxes paid by insurers writing health insurance in Nebraska are remitted to the Comprehensive Health Insurance Pool Distributive Fund in lieu of transmitting 50% of the taxes paid to the Insurance Tax Fund, 40% to the General Fund, and 10% to the Mutual Finance Assistance Fund.

In 1998, legislation was enacted (LB1120) which required ten percent of the premium taxes collected to be transferred to the Mutual Finance Assistance Fund. This fund is used to provide assistance to rural or suburban fire protection districts and mutual finance organizations which qualify under the Mutual Finance Assistance Act. For tax year 2009, \$3,023,224 was allocated to this fund which would have gone to the General Fund prior to the enactment of this legislation.

The statutes direct the State Treasurer to disburse all of the funds in the Insurance Tax Fund prior to June 1 of each year as follows:

- Ten percent to the counties proportionately in the proportion that the population of each county bears to the entire Nebraska population, as shown by the latest United States Government census;
- Thirty percent to the Municipal Equalization Fund; and
- Sixty percent to the State Department of Education for distribution to school districts as equalization aid pursuant to the Tax Equity and Educational Opportunities Support Act. The Commissioner of Education shall: (a) include the amount certified by the State Treasurer pursuant to this section with the amount appropriated to the Tax Equity and Education

Opportunities Fund for distribution in the ensuing school fiscal year; (b) include the amount in state aid certified to each school district; and (c) distribute this fund as equalization aid under the provisions of the Act during the ensuing fiscal year.

An insurance company whose annual tax for the preceding taxable year was \$4,000 or more must make prepayments of its annual taxes on or before April 15, June 15, and September 15 of the current taxable year. The amount of each prepayment must be at least one-fourth of either: (1) the total tax paid for the immediately preceding taxable year; or (2) 80% of the actual tax due for the current taxable year.

The Director is required to deposit one-half of the prepayments received to the Premium and Retaliatory Tax Suspense Fund and the other half to the General Fund. Commencing with the taxable year ending December 31, 2001, all prepayments paid by insurers writing health insurance in Nebraska are remitted to the Comprehensive Health Insurance Pool Distributive Fund in lieu of transmitting one-half of the taxes paid to the Premium and Retaliatory Tax Suspense Fund and one-half to the General Fund.

The Director is authorized to impose retaliatory taxes, licenses, and other fees upon insurers from other states or countries which tax Nebraska insurers at a higher level than the tax rate currently imposed in the State of Nebraska. The retaliatory taxes are transmitted and deposited in the same manner as the insurance premium tax. The licenses and fees are deposited by the State Treasurer to the Department of Insurance Cash Fund to be appropriated and expended for the supervision, control, and regulation of the business of insurance in Nebraska.

In 1993, legislation was enacted (LB757) which imposed a one percent tax on the gross amount of direct written workers' compensation insurance premiums received by the company, the proceeds of which are transmitted by the Director to the State Treasurer for credit to the Compensation Court Cash Fund. For tax year 2009, \$3,260,883 was allocated to this fund which would have gone to the General Fund, Mutual Finance Assistance Fund, counties, municipalities, and school districts prior to the enactment of this legislation.

Statutory Reference and Description	Actual Tax Expenditure Cost (NA = Not Available)
